Dear Sir:

In response to the Office communication mailed May 20, 2004, having a shortened statutory period for response set to expire June 20, 2004, the above-identified patent application is amended a second time as follows:

RESPONSE TO ELECTION/RESTRICTION REQUIREMENT

Applicant elects claims 1-13, drawn to a column, classified in class 210, subclass 198.2. The claims readable thereon are claims 1-13. Furthermore, and with respect to each charged moiety (such as quaternary amines or sulfonic acid), Applicant elects the positively charged moiety. The claims readable thereon are claims 3-5.

TRAVERSE OF ELECTION/RESTRICTION REQUIREMENT

Applicant respectfully traverses the restriction requirement on the ground that it would not be an undue burden to examine the claims in full. If the search and examination of an entire application can be made without serious burden, the examiner must examine it on the merits, even though it includes claims to independent or distinct inventions (MPEP 803). Here, all of the claim sets which the Office asserts require a restriction are all in the same class, class 210. Although the Office categorizes each claim set into different subclasses, the field of search is the same. Furthermore, there is no clear

indication that, in the future, the claim sets will fall into a separate classification and field of search. Respectfully, the Office has not met its burden in establishing the necessity of a restriction in this case.

REMARKS

By election of the claims, as set forth above, Applicant only wishes to advance prosecution of the present application. Applicant reserves the right to petition the decision of the Office regarding the restriction requirement under MPEP §1002 Petitions to the Commissioner, and 37 CFR §1.181.

If an Examiner's Amendment would place the pending claims in condition for allowance, a telephone call to the undersigned at (727) 507-8558 is requested.

Very respectfully,

SMITH & HOPEN
